

WORLD HAPPENINGS BRIEFLY TOLD

Hon. R. B. Bennett, leader of the Conservative opposition at Ottawa, was elected president of the Canadian Bar Association, according to the Hon. Wallace Nesbitt, K.C. of Toronto.

According to Assessment Commission Parley, the population of Toronto for this year showed an increase of 20,742, as compared with 1928. The figures are: 1929, 606,370; 1928, 585,628.

Five thousand tons of antacidine from the Czechoslovak River district, the first coal from Soviet Russia to be imported at Halifax, was landed here on the British liner, "Blairholm," which arrived from Montreal, Tuesday.

Owing to the recent Canadian order against the importation of Scotch cattle British United Press understands the Prince of Wales has been prevented from shipping his Alberta ranch some recent purchases of pedigree cattle.

Coal, one of the few minerals which new Ontario's wealthy mining fields had long failed to show, has been discovered in vast quantities on the Atchafalaya, 90 miles north of Coburn, Premier Ferguson announces.

Hon. W. L. Mackenzie King, Canadian Prime Minister, is expected to make a tour of the West and British Columbia during October. Hon. Dr. J. H. King informed the members of the British Columbia Liberal Association at Vancouver.

The government report issued by the Dominion Bureau of Statistics estimated the wheat crop for all Canada at 253,792,000 bushels. The crop last year was 566,728,000 bushels. Wheat is a record crop for this country. The estimate for the three prairie provinces is 204,471,000 bushels. Last year the prairie produced 544,000 bushels.

Deadly Dealing Tons

Dreadful Possibilities Of War In Warfare Is Exaggerated

The dreadful possibilities of a certain dead dealing tons in war time was mentioned by Professor Gordon Hill, in an address to the Sanitary Hygiene Association, at Lowestoft, England.

Professor Hill called attention to "a certain bacilli which can be handled, but is easily cultivated." If men were as susceptible as guinea pigs are to the toxin produced by this bacillus and there is reason to think they are, it would appear that one gramme, let us say a small spoonful of the dry toxin would suffice to kill a million persons.

Prof. Hill said that the toxin acted if inhaled or if it touched the eye as a powder. He asked the association members: "If men set out to prepare such a toxin and use it by aeroplane, what would be the use of the pamply of war?"

Forest Fire Fighting Methods

New Methods Devised To Cope With Serious Menace

Forest fires in Canada are, to an increasing extent, being fought by specially designed apparatus. Light gasoline fire-fighting have been put into use which deliver a forceful stream of water through half a mile of hose. Fighting the fires at night is also greatly expedited by the use of lamps similar to those used by miners, which can be attached to the worker's cap and so enable him to keep on working during the hours of darkness. At the very time when his work will be the greatest effort.

If drivers would only get it into their heads that it is the writer-driver that we want instead of the reckless driver, all would be well on the King's highway.

The sealing feed of Newfoundland sets sail on a date fixed by law, for no seals may be killed except within a six week period of the spring.

Infra-Red Rays

Can Be Used For Penetrating the Deepest Fog

Infra-red rays, the "invisible light" which the camera peers far into to impenetrable fog, now brings to view tiny, living objects that hitherto, to escaped detection by the microscope. Use of these rays in medicine, photography was described to the thirteenth International Physiological Congress at Harvard Medical School by Ivan Bertrand and J. Justin-Besnon, of Paris. Infra-red is a longer wave length than red, the most lengthy visible ray. It is an invisible step between light and heat.

The Frenchmen exclude all visible light from the photographic plate which is especially sensitized to the infra-red emanations. They said that because of the extra length these rays penetrate into and reveal some of the outer portions of living cells. They described photographically a kidney study that revealed organs "entirely missing in the microscopic examinations by the eye."

Paving Of A Pioneer

C. V. Alloway, Of Winnipeg, Dies

After lengthy illness, pioneer citizen of Winnipeg, who came west with the Wolsey expedition in 1871, to check the Red River breaks in Manitoba, and remained to become one of the city's best known residents, died recently in Winnipeg following a lengthy illness. Mr. Alloway had travelled extensively through northern sections of the west and at one time was sixty miles in the Arctic circle. He was one of the earlier visitors to Churchill, Man., and several years ago predicted that the Peace River district, in Alberta, would see heavy farm settlement.

Born in Ireland, Mr. Alloway came to Canada with his parents in infancy. He lived at Hamilton, Ont., from 1885 to 1890, when he came to Winnipeg.

It is a story of the wholesome love of Sir Jasper Thorpe, 46, for a young girl. It is a story of humor, pathos, and the general beauty associated with the gentle, kindly man. Sir Jasper, Sir John Martin-Harvey is seen at his best.

For the third play on his list, Sir John has gone to the modern Spanish. The title is "The Lowland Wolf." Born the pen of Angel Guiton, the play presents to Sir John a remarkable chance to show talents that have not been altogether forgotten on his recent Canadian tour. He has been part of Manichich, a shepherd of the mountains. The play has been translated into twenty-one languages, and so powerful an appeal has been made by Manichich to the Spanish people that they have erected a statue to him in Barcelona. In Spain he holds rank with Hamlet. This will be the first time this epochal Spanish play has been seen here, and it should prove one of the best popular in which Sir John has ever appeared. For his present tour he has engaged a splendid company, and it is still to be a farewell tour. It will be one long remembered.

Imposing On Canada

Immigrants Who Refuse Work At Reasonable Wages

Twenty British immigrants who have been in Canada a short time, have decided that they do not like the country, refuse work at wages that is now offered to some of them and demand that they be sent back to England at the expense of the Canadian Government. They for five men were offered at harvesting at five dollars a day, but all refused. They were disgusted and wanted to return to England. But that is not making an easy mark of Canada's "to prevent hundreds of thousands of men doing the same thing—coming out here for an adventure or to work in a half-hearted way and then return to England at the government's expense."

These men have not the chin to stand up to the heat of the sun or to think they have. They are allowed free entry to this country under the expectation that they will make the best of their opportunities. When they are refused, masses of support and also refuse work, they put themselves in the position of vagrants. It is the duty of men of this kind they might well be given the disciplinary treatment that is frequently handed out to vagrants. There is no reason why Canada should be imposed upon by such men. If they could not get work of any kind the situation might be different. But when they are refused, they or pay their own way back to their own country. They are not to help themselves. — Manitoba Free Press.

B.C. Liquor Profits

Largest Sum Received In Amount For Last Semi-Annual Period

Profits from the British Columbia Government's liquor profits for the last semi-annual period ended March 31, 1929, totalled \$2,006,054, by far the largest sum on record, according to official figures released recently.

This brought liquor profits from the establishment of government liquor control in June 1921, up to the formidable total of \$5,547,823.

As announced recently \$68,619 of the last six months' profits were distributed to municipalities.

The amount remaining out of the total of \$2,006,054 was allocated as follows: Consolidated revenues of the government, \$775,097; to the hospitals and charities, \$232,679; mothers' pensions, \$354,645.

The Progress of Little Things

In these modern days when it is “the thing” to boast about the progress of this and that, and when countries and cities lay claim to the possession of the biggest of something or other, we are not to forget how many of these “big” things were brought about, and to lose sight of the essential fact that anything “big” is really only a collection or combination of many very small things.

Nobody now so much stress is laid upon old sayings of a couple of generations ago, such, for example, as “Mighty oaks from little acorns grow”; nor do we stop to contemplate that this globe on which we live is after all made up of “little drops of water, little grains of sand.” It would be better for everyone of us if we gave greater heed and watched their real importance to the little things of everyday life. The wealth of the multimillionaire is, after all, only an accumulation of pennies, and some of the very rich men of the world laid the foundation of their wealth by careful saving of their pennies. The hundreds of millions of bushels of wheat harvested in Canada every year is the result of one little reek reaped by Dr. Saunders.

The investment of a few very dollars by the parents of a baby at the time of his birth, if left to accumulate at compound interest throughout the years of his minority, would mean a very substantial sum of money upon which to commence a career in the world by the time the child became an age.

These thoughts come to us when reading a recent article about Trinity Church, in New York City, at the head of the Hudson River, the centre of New York's financial district, began its career 233 years ago on a precarious income derived from the fustian and denim hats put up by the men along the shore where one of the world's greatest cities now stands. Today Trinity Church Corporation is one of the largest holders of real estate in that city, owning \$15,000,000 of revenue producing real estate, bringing into the church office almost \$1,000,000 a year. Nor do these large figures include the value of the property upon which Trinity Church itself stands, the equivalent of about two square blocks in the heart of the financial district, and conservatively valued at another \$15,000,000.

The tremendous wealth of Trinity, we read in the Wall Street Journal, would appear fantastic to the regular readers of the Gleichen Call. William III. made the original grant of land to the parish, supplementing nine years later by a further grant from Queen Anne. In those days the land was of no particular value. Wall Street was non-existent, and Fifth Avenue not even a foot path. But Manhattan Island was destined for great wealth, and the worthless property of a little over 200 years ago is worth many millions today.

Historical records contain efforts to obtain food to start the church, which appear incredible when contrasted with present day values. One of the buildings of the original church in 1696 was a patent issued by the Governor of New York. It permitted vestrymen to seize all drift wrecks, or “tything else driven by the sea onto land, and for which there was no owner. It further directed that the whales be towed ashore, dried, and proceeds used for a building fund.

The lesson of this interesting bit of history is this: Today there are thousands of young people just starting out in life. They have little or nothing. With them it is indeed a day of small things, and as they look around them and see so many huge undertakings, great enterprises, and the speed of the modern world, they are inclined to be discouraged, and become obsessed with the false idea that there is no opportunity for them.

But opportunity is everywhere. It is only a matter of time before you find today where there was but one hundred years ago. The beginning must be small now, so it is not to be discouraged. It is only a matter of time, while the possibilities and probabilities of growth are many times more rapid now.

Take the small thing at once; save the small things, the pennies; watch for and embrace your opportunities; conserve those things which come to you. The bigger things, and the rewards of work and of service to your fellowmen will follow in due course.

To Study Canadian Methods
 S. Fraser, of the Extension Department of the United States Department of Agriculture, Washington, D.C., is making a trip to Canada to study the operations of the Canadian Seed Growers' Association. He plans to study the work at close range and will spend some time on various farms where seed is grown, including that of Major H. G. C. Brangas, Fern, Alberta, president of the Canadian Seed Growers' Association.

Men Speaks—And must our country stand with her arms folded and her hands in her pockets?
 You seldom find the name of the fellow who thinks he “rue” in Whist. Who.

Built Of Wood
 Tremblon, one of St. Mary's most northerly cities, is built of wood, and used serious fire it has been necessary to make the principal streets 100 feet wide.

Excuse me, said the impatient man at the table to the manager, “but did the waiter who took my glass, including that of Major H. G. C. Brangas, Fern, Alberta, president of the Canadian Seed Growers' Association.

Story Of Privation

Tragic Case Of Two Boys Lost In Woods Of Quebec

How 12-year-old Michael Courtis remained for nearly two months beside the body of his brother, Henry, 18, dead from hunger and privation in the woods, and how the two of them had wandered for miles, famished and helpless, was described at Roberval, Quebec, at the inquest into the death of these Courtis, found dead in the woods of northern Quebec, after having been missing since August, 1928.

Robt. and Henry, both bone-fleshed, slender members of livelihood for a time, young Michael had the corner's jury. They were four hundred and fifty miles from Roberval, the nearest outpost of civilization. Having lost two matches, they kept a fire burning in a pit for two months. When the search party found them, the fire was still smouldering but Robt. Courtis was dead. Michael had almost completely lost his reason when rescued, but he is a physical wreck.

The boys were found by their father left them at his cabin while he undertook a hunting trip. They were found by a search party. The coroner's jury returned a verdict, “death by starvation and exposure whereat whereat whereat.”

FEELING WORN OUT
 When the blood becomes watery a breakdown follows

How many girls and women suffer from headache, dizziness, backache, poor appetite, nervousness and general weakness, and how they are the result of a watery blood. The blood is the life of the body, and if it is watery, the body is weak. The blood is the life of the body, and if it is watery, the body is weak. The blood is the life of the body, and if it is watery, the body is weak.

Will Revive Old Newspaper
 J. A. Osborn To Resume Publication Of Virginia Gazette, Established In 1737

An old-time Manitoba newspaperman and William J. J. Osborn, one-time publisher of the Brandon Sun, and founder of the Fort Frances Times, will revive the first of its original printers in Williamsburg, Va., the Virginia Gazette, the first paper south of the St. Lawrence and the oldest in the Dominion, established 1737. The Williamsburg printing office of the Gazette, which has not been used since 1870, will be restored by the time the new paper is published. The article in the Editor and Publisher, which takes note of the new enterprise of Mr. Osborn, is also mentioned that Mr. Osborn will be an assistant instructor in the department of Journalism of the old college of William and Mary, and that his plant will be used as a workshop for the new paper.

Relief Of Unemployment
 Manitoba To Provide: Public Works For The Winter Months

\$750,000 construction program to be carried out in Manitoba during the coming winter was announced by Premier John Bracken, as a means of relieving the unemployment situation. At the same time, action is taken to have the Dominion Government and cities and towns in the province follow a similar course with respect to any undertakings they might have in view.

FATAL FASTING

Press dispatches tell of the death of
one of a party of 40 health faddists
who endured a long fast for its sup-
posed benefits to body and soul.

Suiciding himself, as recommended
by the leader of the cult, Solberg's
weight was reduced from 160 to 85
pounds in 31 days. Then he ate sev-
eral sandwiches and died. Other
members of the party were greatly
emaciated, but no further fatalities
were reported.

It is passing strange that other-
wise intelligent people can be carried
away by such foolishness as this fast-
ing craze.

While it may be that most people
eat more than is good for them, it
goes without food for many days at a
time is just plain idocy.

RELIGIOUS FANTICS

Recent attack on the Jews of
Palestine by fanatical Moslem Arabs
again illustrates the unfortunate fact
that the world's most violent and un-
reasoning hatreds still have their
source in differences over religion, as
has been the case from the earliest
times.

In all ages religious zealots have
sought to exterminate those of other
faiths, in the apparent belief that by
killing they would gain the favor of
the Almighty. Persecution tor-
ture and wholesale massacre have
been employed to this end, among
both savage and supposedly civilized
peoples.

It is interesting to recall in this
connection the approval by Rev. Cot-
ton Mather, foremost scholar of his
day, of a plan to capture William
Penn and his land of Quakers on the
high seas while on their way to
America and sell them into slavery
Mather wrote in 1682:

"Much spoil may be made by
selling the whole lot to Barbadoes
where slaves fetch good prices in
land and sugar, and we shall not only
do the Lord a great service by punishing
the wicked, but we shall make great
gains for His minister and people."
The same intolerant spirit exists
in our own day, not only among the
fanatical Arabs, but among zealots of
all faiths, including many who call
themselves Christians.

**ECHOES OF GLEICHEN
TWENTY YEARS AGO**

Taken from the Call in 1909

The Gleichen Trading Company's
new block may be said to be en-
tirely completed and fully occupied.
Sun Call, who is known as the most
influential Indian among the Black-
feet Indians, escaped from the
Mountie Police at Strathmore Mon-
day and the police were taking him to
the train.

Mr. K. Urch left yesterday for a
visit to the Blackfeet.

F. H. Hockert is contemplating
the erection of a fine big house at his
present store stand.

Nanaka is being overlooked by the
banks, but that place will soon com-
plete its financial plight.

Capt. R. N. Poe, of San Francisco,
Ireland, arrived last week to visit his
son, H. R. Poe for a short time.

The Bank of Commerce has open-
ed a branch at Strathmore, which
makes the second for that bustling
town.

Mr. and Mrs. F. K. McKay returned
Thursday from their trip to the
Seattle fair, much delighted with
their stay.

Robt. Shaw, with his son and S.
Miller arrived in town about 5:30
Tuesday evening with an automobile
starting from Stettin about 7 o'clock
that morning, covering a distance of
about 100 miles.

W. T. Barro, of Snake Valley, was
the first to bring grain of this year's
growth to Gleichen elevators, and the
Alberta Pacific Elevator was the lucky
purchaser paying the price that day of
No. 1 Northern, etc. The first ar-
rived farmers to bring wheat to town

W. D. Sharp and N. J. Robinson, of
Arrowood creek, the latter bringing
in two wagon loads, and disposed of
them to the Imperial Co.

Mrs. E. Griesbach has returned from
London, Ont., where she spent some
months in the hospital.

Messrs. Miller, West, Holmes and
Johnson went to Banff last Thurs-
day all returning Monday but Mr.
Johnson. They enjoyed their out-
ing and will go again soon.

D. C. Wishart has purchased one
of the prettiest marked points
ever seen in this district from a
rancher living on the Red Deer river.

TOWN OF GLEICHEN

NOTICE

BY-LAW No. 190

A By-law of the Town of Gleichen
Alberta to raise by the issue of de-
bentures the sum of Twelve Thousand
and Five Hundred Dollars, \$12,500.
Whereas, it is deemed expedient
by the Council of the Town of Gleichen,
Alberta to raise by the issue of de-
bentures on the credit of the Municipality
the sum of Twelve Thousand
Five Hundred Dollars to be used in
the construction of a covered skating
rink in the Town of Gleichen ac-
cording to the plans now on file in the
office of the Secretary-Treasurer of
the Town, and for any work connect-
ed therewith.

And Whereas it is deemed advis-
able that the indebtedness thus cre-
ated should be spread over a period of
twenty years and that the debentures
issued hereunder bear interest at
the rate of six per centum per an-
num.

And Whereas the whole rateable
property of the Town of Gleichen ac-
cording to the last revised Assess-
ment Roll is the sum of \$232,000.00,
And Whereas the total amount of
a covering debt of the Town of Gleichen,
Alberta, outside of the debt for the
sum of \$100,000.00, not in excess of
which sum is in arrears.

And Whereas it is deemed exped-
ient that this by-law take effect on
the 15th day of October, A. D. 1929,
THEREFORE the Council of the
Town of Gleichen, Alberta, enacts
as follows:

1. That the sum of Twelve Thousand
and Five Hundred Dollars be raised
by the Town of Gleichen and be ex-
ercised in the construction of a cov-
ered skating rink in the Town of
Gleichen and for any work connect-
ed therewith and for the purpose of
raising the said sum or more de-
bentures in the sum of \$100,000.00
of the amount of \$12,500.00
at aforesaid and be raised each of
which debentures shall be dated
of the day in which this by-law takes
effect and shall be payable in twenty
equal consecutive annual installments
of principal and interest at the Can-
adian Bank of Commerce in the Town
of Gleichen, Province of Alberta.

Each of the said debentures
shall be signed by the Mayor and
Secretary-Treasurer of the Town of
Gleichen and shall be sealed with the
seal of the Corporation of the Town
of Gleichen.

2. That the said debentures shall bear
interest at the rate of six per centum
per annum and shall be attached
to them coupons for payment of the
annual installment of principal and in-
terest which coupons shall be signed
by the Mayor and Secretary-Treas-
urer of the Town of Gleichen.

3. The said sum shall be ex-
ercised in the erection and construc-
tion of a covered skating rink for
the Town of Gleichen and for any
work connected therewith.

4. During the currency of this
debentures there shall be raised
annually by special rate on the
able property in the Town of
Gleichen the sum of \$1008.70 for the
purpose of paying the amount of the
annual installments of principal and
interest in each of the said years in
respect of the said debt.

5. This by-law shall take effect
and come into force on the 14th day
of October, A. D. 1929.

6. That the votes of the qual-
ified electors of the Town of Glei-
chen shall be taken on the 11th day
of October, A. D. 1929, at the Town
Office, Crowfoot Street, in the Town
of Gleichen, commencing at the hour
of ten o'clock on the forenoon, and
continuing to the hour of seven o'clock
in the afternoon of the same day,
and the Returning Officer for the
taking of the said votes shall be
Matthew Murray.

7. The said Returning Officer
shall sum up the number of votes for
and against this by-law on the 11th
day of October, A. D. 1929, at the hour
of seven o'clock in the afternoon in
the Town Office, Crowfoot Street, in
the Town of Gleichen aforesaid.

8. This by-law shall be finally
considered by the Council of the Town
of Gleichen and if the same shall have
been assented to by the electors shall
then be passed on the 14th day of
October, A. D. 1929, in the Town
Office, Crowfoot Street, in the Town
of Gleichen, at the hour of eight o'clock
on the evening.

9. BEING A FIRST time in open Coun-
cil on the 16th day of September, A. D.
1929.

M. MURRAY, Secy.-Treas.

NOTICE

The above is a true copy of the pro-
posed by-law which will be taken into
consideration by the Council of the
Town of Gleichen after being voted
on by the electors and a first public
meeting on the 11th day of September, A. D.
1929.

The votes of the electors will be
taken on the 11th day of October, A.
D. 1929, between the hours of ten
o'clock in the forenoon and seven o'clock
in the afternoon of the same day at the
Town Office, Crowfoot Street, in the
Town of Gleichen.

M. MURRAY, Secy.-Treas.

2 Ball and Roller Bearings

Reduces Friction and Makes for Ease of Operation

Drive it Yourself—there is no Better Test

Ford Car Features
Chassis of motor
fit to 15 miles an hour
throttle power valve
Full reduced stroke action
a flexible hydraulic shock absorber
fit to 15 miles per gallon
of gasoline
Shatterproof spring steel
that proof against lock
steering and low wear

AVISH use of ball and roller bearings in the Ford car greatly reduce friction and contribute to easier operation and longer life of the car. Note the coasting ability of the Ford car as compared to any other automobile in its weight class.

Examination of the chassis will at once show the advantages of these bearings. On the rear axle position and differential all the taper roller bearings are held to such close limits that adjustment is unnecessary, pinion and ring gear always being held in proper mesh.

Spiral roller bearings are used in the rear hub because of their large bearing surface and ability to carry heavy loads. One is also used on the drive shaft at the universal joint end, to assure perfect alignment.

Taper roller bearings in the front wheels have a simple adjustment. Roller thrust bearings on the spindle bolts make for easy steering. Two bearings, one above and one below, take up the thrust on the steering worm.

The fan shaft operates on a roller bearing. The generator, the transmission, the connection between the spline and drive shafts, the clutch, the flywheel—all these important parts are made more efficient and enduring through the use of ball and roller bearings.

These bearings form a striking illustration of the engineering skill and care used in building the Ford car.

Arrange for your demonstration ride with the nearest Ford Dealer

Gleichen, Alberta

TOWN OF GLEICHEN

NOTICE TO RELATIVES OF PERSONS ON THE ASSESSMENT ROLL AND TO TENANTS

Notice is hereby given that during the months of September and October applications may be made under the provisions of Section 204 of the Town Act for inclusion in the voters list of the Town of Gleichen.

The wife, husband, father and mother and every son and daughter of any person whose name appears upon the assessment roll are entitled to be placed upon the said list—

(a) if he or she is resident with the said person within the town or outside him in his business in respect of which he is taxable and;

(b) if he or she is of the full age of twenty-one years and;

(c) if his or her name does not already appear on the roll and;

(d) if he or she duly makes application in accordance with this notice.

All tenants who have rented an assessed parcel for a period of twelve months immediately preceding the last day of August of this year and who duly make application during the months of September and October are entitled to be placed upon the said list.

M. MURRAY, Secretary-Treasurer

COME ON, MANY THE PARTY'S READY! MY WIFE THAT DECISION OF YOURS TO TAKE ALONG CALGARY DRY GINGER WAS A REAL BOY!!

SEE WHERE I CAN DRINK A LITTLE BETTER EASILY!

COME ON, I'M AS DRY AS A BONE! I CAN DRINK A LITTLE BETTER EASILY!

Proposal Is Made To Place Doukhobors On Island Colony

Victoria, B.C. — Russian Doukhobors, including those who have been making trouble in British Columbia, will be placed on a new island colony in the Gulf of Georgia, between the mainland of British Columbia and Vancouver Island, if the Federal Government will plan to do so, according to the British Provincial Government.

The scheme, it was revealed, has been before Hon. J. H. King, Federal Minister of Health. He will discuss the matter with his colleagues on his return to Ottawa.

The proposal that Doukhobors who refuse to obey Canadian laws be removed to a colony by themselves, where they will have no contact with the rest of the world, is advanced by the Provincial Government in the belief that the Doukhobor problem will be solved. The Doukhobors, it is explained, were brought here under contract by the Federal Government.

As Doukhobor colonies exist in Alberta and Saskatchewan, as well as in British Columbia, no single Provincial Government, it is pointed out, can possibly deal with them.

Darcy Island is suggested as a suitable place for the proposed colony. It is isolated and is a safe place from which to escape from the world.

The Provincial authorities feel that the Doukhobors, who are Russian sects, are not to be placed peacefully in a peaceful country. It is a stringent form of imprisonment, it is thought, is desirable. On Darcy Island, however, they would be allowed a reasonable amount of freedom, and they would be able to engage in the work of the land.

It is hoped they would agree to embrace Canadian customs.

Find Lost Aviator

Record in Northern Manitoba After Wandering in Bush For 10 Days

The Pas, Man.—After wandering 10 days in the wilds of northern Manitoba, during which time he lost his gun and his compass, a young man, C. F. P., was found by a party of young men, who were hunting for him, on a hillside, some 20 miles west of the town of Pelly. He had been lost for over a week, and had been virtually abandoned hope of finding him.

When a little while for his experience. He is somewhat thin and haggard, having lived principally on berries, which are plentiful in this northern season, and he expressed surprise that he had been able to find his way to Oxford House, and that he had been picked up by his clothes. He said that he had been wandering through the thick brush.

The youthful hero, who is a pilot for the Western Airline Corporation, was lost on August 24, when forced to land near Pelly Lake owing to lack of fuel. He remained with his machine for two days, hoping that a party of hunters would be able to spot him from the air, and to come to his assistance.

When aid did not arrive, Messrs. C. and C. set out for Oxford House, 70 miles as the crow flies from the place where he landed. The bush, however, is very thick throughout the territory and the country is dotted with swamps, making travel very extremely hard. It is estimated that he had been wandering for over a week, and had been attempting to reach his goal.

Meanwhile, places were sent out to find him, and a party of hunters took up his trail, being guided by occasional foot-prints and plucked berries. When news was received that the Indians were only 12 miles behind him, and probably would have found him in two days, time if he had not been seen from the air.

Want Disarmament Conference

Geneva, The League of Nations has called upon the British Empire to convene a general disarmament conference of the powers.

Mr. McKinnon, foreign minister of the Free State Government, made the proposal. He expressed regret that 13 years after the close of the great war so little had been done to remove the scourge of war.

Alcorno West Pool

Calgary, Alberta.—The Alberta Water Pool now owns 120 acres of land, which it has been leasing for 10 years over the number operated last year.

The pool has had an output of 100,000 barrels of oil, and has been producing approximately 60 per cent. of all pool water.

W. N. 11 1929

Makes Important Discovery

Young Scientist Studies American Chemical Society With Demonstration

Minneapolis.—The splitting of a supposedly indivisible element, hydrogen gas, in two substances, was demonstrated to the American Chemical Society here.

It was called the "greatest scientific discovery of 1929" by Dr. H. G. Taylor, of Princeton University, chairman of the session.

Dr. Taylor, who is a young German, who was a 17-year-old infant in the front-line trenches of the close of the world war, is the discoverer.

Dramatically he set his proof before the eyes of the chemists in a room of light upon the wall of a University of Minnesota lecture room, like a moving finger it wrote the forecast of a revolution in physical chemistry. This revolution was described enthusiastically by Dr. Taylor.

It opens the way to finding an entirely new species of molecule. It is the first proof of something forecast mathematically by the new wave mechanics. It means that the theory of quantum chemistry will have to be revised.

The discovery has no present commercial value, but it is a very important step in the development of chemistry. It seems to open in very important.

STATE CONTROL SUGGESTED FOR BROADCASTING

Ottawa.—Radio-broadcasting in Canada should be controlled and operated by a government department, it is the belief of the chief recommendation of the royal commission on the subject.

The commission, which was set up by the government, has been working for some time on the subject. It has been holding public hearings and has received many suggestions.

The commission has been working for some time on the subject. It has been holding public hearings and has received many suggestions. It has been working for some time on the subject.

Jury Makes Recommendation

Unable To Establish Origin Of Fatal Winnipeg Fire

Winnipeg.—Stating that it was unable to establish the origin of the fire that destroyed the Metropolitan Hotel, the jury has recommended that the government should take steps to prevent such a disaster from happening again.

The jury, which was made up of nine men and women, found that the fire was caused by a gas leak. They recommended that the government should take steps to prevent such a disaster from happening again.

The jury, which was made up of nine men and women, found that the fire was caused by a gas leak. They recommended that the government should take steps to prevent such a disaster from happening again.

Families Banned

Vancouver, B.C.—Chanting the usual Russian songs of their religion, 14 men and women with seven children, members of the Basm of Freedom sect of the Doukhobors, were ordered to leave the city.

The Basm of Freedom, a sect of the Doukhobors, were ordered to leave the city. They were found to be a nuisance to the community and were banned from the city.

Forty-Two Bushels Per Acre

Saskatoon.—The best wheat yield ever recorded in Saskatchewan is 42 bushels per acre, it was announced by the Saskatchewan Wheat Board.

The yield was recorded at a farm near Saskatoon. It was a record for the province and was a great achievement for the farmers.

House Grain Exchange

Winnipeg.—William A. Murphy, vice-president of the Alliance Grain Company, has been elected president of the Winnipeg Grain Exchange.

Mr. Murphy, who has been in the grain business for many years, was elected president of the exchange. He will be responsible for the management of the exchange.

Send Message To His Majesty

Business Men Meeting In Edmonton Send a Message of Greeting

Edmonton.—A message of greeting from the 300 business men of all provinces, and representatives of five of the leading chambers of commerce of Great Britain, together with members of the Mother of Parliaments, was sent to King George VI at the opening of the fourth annual convention of the Canadian Chamber of Commerce. The message, signed by the president, William W. Brown, conveyed to His Majesty the rejection of the convention over the improvement in his health.

Messages of greeting from the business men of the four provinces, Mr. H. H. Macdonald, prime minister of Great Britain, Mr. H. W. Macdonald, secretary of state for the dominions, Lord Ivers, president of the Federation of Chambers of Commerce of the British Empire, and from the premier of various Canadian provinces, were read.

"It is the very earnest and constant hope of the business men and colleagues that the remarkable progress of Canada may continue at the rate of the last few years, and that the happy and mutually advantageous association which unites her with Great Britain may be strengthened."

The message was signed by the president, William W. Brown, and by the members of the convention.

Saskatchewan By-Elections

Dates Have Been Set For October 7, 14, 21

Regina, Sask.—Fixing of the dates of eight by-elections made necessary by the election of certain private members of the Saskatchewan Legislature to cabinet positions, calling of the first regular session of the legislature by the new government shortly after the first of next year, and decision to hold a provincial-wide Liberal convention next spring, are the three developments of the political situation in Saskatchewan.

Premier J. M. Anderson announced that the by-elections would be held on October 7, 14, 21, 28, and November 4, 11, 18, 25, and December 2, 9, 16, 23, and 30.

The by-elections are being held to fill the vacancies caused by the election of certain private members of the legislature to cabinet positions. They will be held in Regina, Moose Jaw, Saskatoon, and other parts of the province.

Press Reform Movement

Combination Trainers and Ship's Suggested For Universal Use

New York.—The "Press Reform Movement" broke into the congress of the World League for sex reform on September 20, elections on October 7, Tuesday, Monday and York, nomination on October 7, elections on October 14.

The congress was held in New York. It was a meeting of the press reform movement, which is a movement for the reform of the press.

The congress was held in New York. It was a meeting of the press reform movement, which is a movement for the reform of the press.

Study West Prices

Washington.—Investigation of the disparity between Canadian wheat and American wheat prices, together with a study of the whole subject of grain prices, was the main object of the meeting of the Western Grain Board.

The meeting was held in Washington. It was a meeting of the Western Grain Board, which is a board for the regulation of grain prices.

International Ballon Race

Ten Entries For the Gordon Bennett Event To Be Held Nov.

St. Louis, Mo.—Ten balloons, representing the United States, France, Germany, Belgium, Denmark and the Argentine, will start away from St. Louis, September 28, in quest of the International Gordon Bennett trophy. It will be the eighth year of the international balloon races and the third to start from St. Louis.

The race will be held in St. Louis. It is a race for balloons, which is a very interesting and exciting sport.

LABOR PARTY TOWNS APPROVAL OF THE PEOPLE

London, Eng.—With Communist entanglements completely severed, the Labor party conference opening in Brighton at the end of the month is expected to reverse the bulk of its attention to overseas reform, with the exception of the League of Nations, which will be a minor item on the agenda.

The conference will be held in Brighton. It is a conference of the Labor party, which is a party for the people.

Premier's Western Trip

Depends Largely On The Plans Of Ramsey MacDonald

Ottawa, Ont.—The western trip of Premier MacDonald, which has been the subject of much speculation, will depend largely on the plans of the premier. It is expected that he will visit the west in the near future.

The trip will be made by the premier. It is a trip to the west, which is a very important part of his duties.

Donkhor Sent To Jail

Fifty-Nine Members Of Sum Of Freedom Are Sentenced

Regina, S.—Ninety-two Doukhobors, men and women, children, self-styled members of the Basm of Freedom, were sentenced to jail for 10 months in all, while the remainder, consisting of 37 juveniles, 20 boys and 17 girls, were sent to the children's welfare bureau at Prince Albert.

The sentence was passed by the court. It was a sentence for the Doukhobors, who are a sect of the Doukhobors.

Largest Western Trip

Vancouver.—According to figures obtained by Canadian Pacific Steamships, Ltd., the Port of Vancouver now ranks first among the ports of the Pacific coast. Outgoing passenger traffic for the month of June was 10,000 tons, and the volume of outward and inward cargo and tonnage of exports and imports was 10,000 tons.

The port of Vancouver is a very important port. It is a port for the west, which is a very important part of the country.

Drive It...
and let your own
experience sell you

NO one who has sat behind the wheel of the New Chevrolet Six could ever be contented with less than the quality... less than the performance that this outstanding SIX provides.

For Chevrolet is the lowest priced six in the world with this remarkable combination of fine car features—

Body by Fisher, with deep, richly-upholstered cushions, Fisher VV Windshield, Tensored Fittings, fashionable Duco colorings, smartly beautiful design. Six-cylinder valve-in-head engine, of high-compression non-detonating type, with extra efficiency of "direct firing" and twister pick-up due to automatic accelerating pump.

New design, ball-bearing steering gear, giving marvellous handling ease. Efficient braking system of non-locking four-wheel brakes and independent emergency brakes. Long semi-elliptic, shock-absorber springs, parallel with the frame.

Modern Convenience Features, twin-beam headlights, foot-controlled, high-speed window regulators, indirectly-lighted instrument panel, including electric temperature gauge and theft-proof Electrolock.

And all these, plus the established economy and staunch endurance for which Chevrolet is famous, at the price of a four! Drive it and let your own experience sell you on Chevrolet Six! 0-11-0-000

Town & District

Everybody is going to the Board of Trade Dance Friday night.

Don't forget the annual Canadian Club meeting next Wednesday evening.

Mrs. Jas. Young has been quite ill for sometime but is improving under Dr. Simmond's care.

Mrs. S. E. Dafee is improving from a severe attack of inflammatory rheumatism and pleurisy.

Hugh Beach and Addison Wilson left Tuesday afternoon to continue their studies at the Edmonton University.

Miss H. Morrow and Miss Irene McBean came down from Calgary Sunday to visit their homes west of town.

Mr. and Mrs. J. H. Tarson, who have been visiting Mr. and Mrs. H. Scott for a week, have left for their home in Alhambra, Calif.

Rev. Davies and family have moved from the rectory to D. Hardwick's house on Eight Ave., where they will reside in future.

There is a persistent rumor about town that Fairway's Ltd. will build and operate one of their chain stores at Gleichen in the very near future.

A whist drive will be given by Ladies Auxiliary of the B. E. S. L. in the dining room of the Gleichen Community Hall next Friday evening, Sept. 20th.

The Brotherston Electric Co. Ltd., of Calgary, has opened a branch in Gleichen at McKay's hardware store, with J. Moir as manager. Read their ad. in this issue.

Mr. and Mrs. M. McMann, nee Miss Vivian Brown, have returned from their honeymoon, Sunday. Monday night a number of young people surprised them and spent a pleasant time. They left Tuesday for Carbon.

A very successful convention was held at the McDonald Hotel in Edmonton last Thursday and Friday of the Alberta Division of the Canadian Weekly Newspaper Association at which about seventy newspapers were represented.

Monday Alex. Buckley, son of Mr. and Mrs. John C. Buckley, M.L.A., for Gleichen constituency was taken dangerously ill at his home north of town and was ordered taken to Calgary immediately by Dr. Farquharson, where he was operated on for appendicitis that evening and is now reported nicely improving.

While cranking an auto last Friday it backfired, breaking and dislocating Milton Desjardine's wrist and arm, son of O. Desjardine. Dr. Farquharson took several x-rays of the injured elbow and set the bones in place, which are very interesting to see. The operation was very painful and the young fellow stood it bravely without anesthetic.

This morning Secretary Matthew Murray received word from the Board of Utility Commissioners at Edmonton that it will be necessary to make certain changes in the Gleichen Town by-law No. 190 concerning the proposed covered skating rink, appearing on page four in this issue which was printed before this information was received. Among other things only ten years can be allowed to extend the annual payments over. Thus at a special meeting of the Council the subject will be re-considered to-night and in the meantime the by-law is cancelled and also the date of voting.

EXPRESS THANKS

It is our desire to express our most sincere thanks to all our many friends and neighbors for the many kindnesses shown us by them during the recent illness of our father and husband and also in our great sorrow in his departure from this life.

Mrs. Jessie M. Baker and Family.

C. P. R. TRAIN TIME FOR GLEICHEN

On Sunday, September 29th, important changes will be made in passenger train schedules and train times for Gleichen will be as follows: No. 1 westbound 5.34 p.m.; No. 2 eastbound 8.33 a.m.; No. 4 eastbound 4.27 p.m.; No. 3 westbound 5.54 a.m. stops to de-train passengers from Moose Jaw or east.

LTMTED

Some who write convincingly concerning international peace are unable to keep on speaking terms with their wives.

It looks as though the divorce evil can only be suppressed by removing the cause, which is marriage.

The only advantage in listening to some radio programs is that the listener doesn't have to change the phonograph needles and records.

When government regulation is extended to cigarettes we may expect to see a strict limit to the number of coughs permitted to the carload.

When a couple were divorced recently an agreement was made whereby the former husband and wife are each to keep a pet dog six months every year. Now to round out the mutual love for the dog brings about a reconciliation.

Miss Rose Delman of Glasgow married Joseph Cotton, who saved her from drowning 15 years ago, when she was five years old.

G. H. Strutt of New Orleans provided in his will that his widow should forfeit an income of \$20,000 a year if she remarried.

DON'T YOU WONDER TOO?

We sometimes wonder how it is that a man gets up in the morning after sleeping on an advertised mattress, on an advertised bed and pulls off advertised pajamas, takes a bath in an advertised tub, washes with advertised soap, shaves with advertised safety razors, using advertised soap, puts on advertised underwear and socks and adjusts with advertised garters, dons an advertised shirt and collar and shoes, and an advertised suit, indulges in breakfast on advertised cereal, drinks a cup of advertised coffee, puts on an advertised hat, lights an advertised cigarette, rides to the office in an advertised car, with advertised tires, uses an advertised fountain pen on advertised paper at an advertised desk, dictates his letters to an advertised device and has them transcribed on an advertised typewriter, reads advertised books and newspapers, attends advertised shows, deposits his money in advertised banks, and on Sunday attends advertised services, then refuses to advertise on the grounds that—advertising doesn't pay.

Daniel Robinson of Maghera, Ireland, celebrated the passing of his 104th birthday fishing.

FLY-- AVIATION IS GROWING

The biggest opportunity of the century awaits those who prepare and train now. Be an active student at home, gaining a knowledge of design and construction, navigation, instruments, meteorology, theory of flight, etc. A wonderful course prepared by expert instructors; rates are very low.
